Yale

The smarter
way to
protect your
home

What is Smart Security?

Yale's Smart Locks, Smart Home Alarms and Outdoor and Indoor Cameras can all work as standalone smart solutions. What's more, some can connect together, and others work with third party Smart Home systems so you can tailor your home security to your individual needs.

Yale

Conexis® L2 Smart Lock

Keyless

Say goodbye to keys once and for all. Open your Conexis® L2 via your Key Card, Key Tag or smartphone via the Yale Home app.

DIY Friendly

The Conexis® L2 has been designed for easy installation. The smart lock simply replaces existing door handles on lift-to-lock PVCu/Composite doors.

Remote functions

Unlock and monitor your door from anywhere in the world.

Tamper Alert

Protected by an internal alarm, if someone attempts to break in via the Conexis® L2, an 80dB siren will be activated.

Guest access

Manage access for those you're happy to let in when you're away. View activity log to check comings & goings.

Works with Leading Voice Assistants

Intelligently connected, the Conexis® L2 also works with leading voice assistants Google Home and Amazon Alexa – "Alexa, is my front door locked?"

- BSI IoT Kitemark accredited
- Operating temperature -15°C to 55°C
- IP55 weather resistant
- PAS 24 Compliant
- Low power consumption - 4x AA batteries last up to 1 year
- 9V battery backup
- 2 year guarantee
- Includes Connect Wi-Fi Bridge and Doorsense™

Conexis® L2 Smart Lock

Open the door to your world with Conexis® L2. The Smart Door Lock that puts you fully in control of access to your home and provides ultimate peace of mind.

Say goodbye to carrying keys - and the risk of losing them. Gain entry with your smartphone, using the Yale Home app, or enable auto-unlock - great for when you're carrying heavy items.

The Conexis® L2 is compatible with most multi-point locks on the market. The Conexis® L2 should only be fitted in properties where there is an alternative point of entry.

Give access to friends, family and trades from anywhere in the world. See who has entered and left your home via the Activity Feed in the Yale Home app.

Always know if your door is closed with Doorsense™. You can easily check the status in the Yale Home app.

Yale

Keyless Smart Lock

Keyless

The Keyless Connected Smart Door Lock gives you the freedom to secure your home without the need for a key.

Simple as 1,2,3

Open your door via PIN code, key card, key tag, remote fob and even from your smartphone when connected to a smart home system.

DIY Friendly

The Keyless Connected has been designed for easy installation. The smart lock simply replaces existing rim cylinders found on timber doors.

Tamper Alert

Protected by an internal alarm. If someone attempts to break in via the Keyless lock an 80db siren will be activated.

Specification

- Operating temperature -15°C to 55°C
- IP55 weather resistant
- PAS 24 Compliant
- Low power consumption - batteries (4x AA) last up to 1 year
- 9V battery backup
- 2 year guarantee

Yale

Keyless Smart Lock

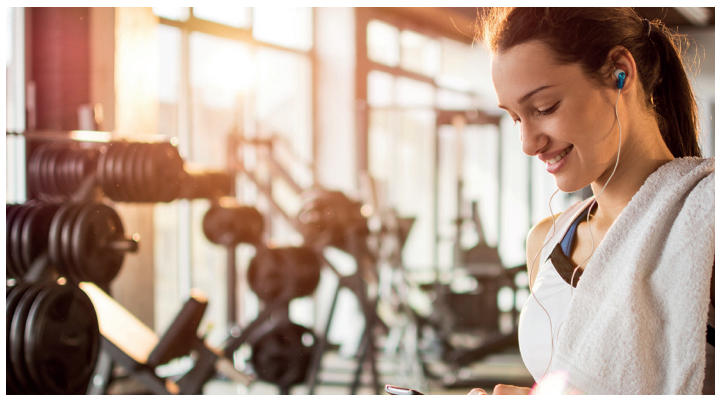

The Yale Keyless Connected Smart Lock gives you freedom to secure your home without the need for a key. Simple to use, you now have complete control on how you unlock your door.

The Keyless Connected Smart Lock gives you the freedom to secure your home without the need for a key.

The Keyless Connected Smart Lock is powered by 4 AA batteries, with a warning when they are running low. In the event of flat batteries, simply touch a 9v battery onto the terminals at the bottom of the unit.

Add the Yale Access Module (sold separately) to your Keyless Connected Smart Lock to enable remote control and unlock the features of the Yale Home app.

The Keyless Connected Smart Lock is compatible with most 60mm backset Nightlatches, making it a quick and easy installation.

Yale

Sync Alarm Accessories

Motion Detector AC-PIR

The Yale Sync Motion Detector activates when motion is detected - when triggered, you will be immediately notified by the App. This PIR will work up to 200m away from the Sync Hub.

Pet Friendly Motion Detector AC-PETPIR

The Yale Sync Motion Detector activates when motion over 25kg is detected, ensuring your pets can roam freely, even when your alarm is armed. If triggered, you will be immediately notified by the App. This PIR will work up to 200m away from the Sync Hub.

Door/ Window Contact AC-DC

The Door/ Window Contact is easy to pair with your Yale Sync Smart Home Alarm. Simply fix the contact to any door or window throughout your home and rest assured that your home is protected.

Keypad AC-KP

The Yale Sync Keypad can be used to arm, disarm or emergency trigger your Yale Sync Smart Home Alarm up to 200m away from the Sync Hub. The disarming function is protected by your own 4 digit PIN code.

Yale

Sync Alarm Accessories

Remote Key Fob AC-KF

The Yale Sync Key Fob can be used to arm, disarm or emergency trigger your Yale Sync Alarm up to 200m away from the Sync Hub.

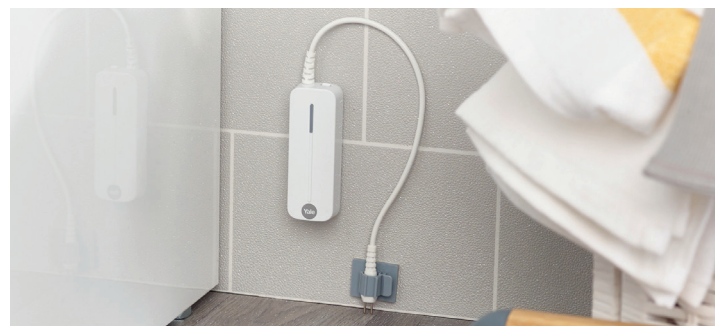

Smart Plug AC-PS

The Yale Sync Smart Plug allows you to turn home appliances on and off remotely via the Yale Alarm App or ask Alexa to turn the devices on and off for you.

Interlinked Smoke Detector AC-PSDS

Synchronise home and fire protection with the Interlinked Smoke Detector, featuring a reflective photoelectric sensor to detect smoke from any source, especially smouldering fires, a 85dB Siren and the optional ability to detect rate of rising heat when temperatures exceed 57.25°C or rise by 8.25°C per minute.

Smart Water Sensor AC-WS

In an effort to combat the devastation of water damage in the home, the Yale Smart Water Sensor will alert you via the App if your home is in danger of flooding.

Yale

Sync Alarm Accessories

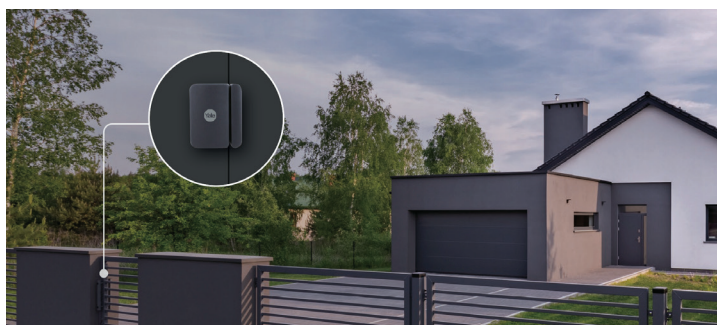

Mini Door/Window Contact AC-MDC

The Mini Door/Window Contact allows for discreet monitoring of the opening and closure of doors and windows, thanks to the revised sleek aesthetic.

External Powered Siren AC-PBX

The External Powered Siren is the ideal visual deterrent for arming your home and improving your home security for enhanced peace of mind. It is mains powered, so no need to change the batteries!

Outdoor Contact AC-ODC

Monitor the status of your doors, gates, entry ways and exits outside your home with the Outdoor Contact. It's easy to install and weatherproof (IP66 rated).

Outdoor Motion Detector AC-OPIR

Easily detect movement outside your home or throughout your outbuildings, including backyards, lawns, gates, outdoor corridors and hallways with the Outdoor Motion Detector.

Wireless Alarm Kit

Ideal for internal use in vans, garages and outbuildings, the Yale Wireless Alarm is simple to install, completely battery-powered and can be wall-mounted or free standing – the choice is yours.

The Yale Wireless Alarm Kit also comes with a door contact and remote control, allowing you to arm your alarm at the touch of a button.

130dB Siren

The built-in 130dB siren is ideal for getting rid of unwanted visitors.

Distance protection

Alarm has a range of 8m, allowing you to secure your shed, garage and other outbuildings.

Door Contact

Door contact provides immediate perimeter notification of intruder.

Key Fob

Handy key fob allows you to arm/disarm the alarm up to 70m away.

Motion Detection

12m detection range suitable for protecting vehicles sheds, garages and outbuildings.

Battery Powered

18 months battery power, dependent on usage.

Specification

- Wireless
- Siren 130dB
- Alarm range 8m
- Key Fob range 70m
- 2 year guarantee

YSGA02-W

Yale

Shed and Garage Alarm

SAA5015

The Yale Shed and Garage Alarm is the ideal way to secure buildings outside of the main home. It is simple to install, can be wall-mounted or be freestanding. The Yale Shed and Garage Alarm is a standalone, wire-free and battery operated alarm, so there is no need to run any cables. A great wireless security solution for sheds, garages, outbuildings and caravans.

Motion Detection

Alarm will sound 10 seconds after motion is detected if 4 digit PIN code is not entered. You can set your own PIN code.

Range

12m detection range suitable for protecting sheds, garages, outbuildings and caravans.

Loud Siren

100dB siren, loud enough to alert you when motion is detected.

Low Battery Indicator

Red light warns you when batteries are running low.

Easy to install

The alarm can be wall-mounted or freestanding.

Specification

- Dimensions 3.3 x 6.5 x 16 cm
- Weight 120 g
- Wireless
- 100dB siren
- 2 year guarantee
